

Technical drawing of a 90-degree bend in a double-line cable. The drawing shows the cable's profile with two parallel conductors. Key dimensions and features include:

- A horizontal dimension of 1.2 at the left end.
- A vertical dimension of 3.2 at the top end.
- A bend angle of $90^\circ \pm 1^\circ$ indicated by a curved arrow.
- A radius of curvature R_5 at the bend.
- Small rectangular features on the conductors, likely representing insulation or identification marks.
